Course Overview

This course aims to familiarize students with the concepts involved in the marketing of goods and services internationally, which include the rationale of international marketing, international marketing environments, and strategies for international marketing.

Course Goals

On completion of this course, students should be able to:

1. Develop international marketing activities in their actual or future organizations.
2. Analyze the marketing practices and problems of organizations within a global context.
3. Discuss the various environmental variables that impact on international marketing including economic and financial variables, social and cultural, political and legal, and information and technology variables.
4. Develop international marketing strategies for consumer products, industrial products and service products.
5. Appraise marketing strategies that may be necessary for different markets.
